

Table S6 Carstairs Quintile versus Fathers Social Class codings derived from occupation as given on the birth record.

Data are for cases and controls combined.

Social Class based on Fathers occupation as given on the birth certificate											
Carstairs	NoOccup ¹	NoClass ²	Total Unknown	1	2	3N	3M	4	5	Total Known	Total
1	221	124	345	1061	2739	1214	1535	661	127	7337	7682
2	350	151	501	933	2815	1256	2285	1067	259	8615	9116
3	578	199	777	893	2728	1425	3169	1524	424	10163	10940
4	1174	322	1496	838	2783	1580	4763	2368	866	13198	14694
5	2901	626	3527	693	2923	1851	6914	4083	1817	18281	21808
Total	5224	1422	6646	4418	13988	7326	18666	9703	3493	57594	64240
Percentage	8	2	10	7	22	11	29	15	5	90	100

¹ “NoOccup” are totals with no father's occupation given on the birth certificate

² “NoClass” are totals where an occupation is given but could not be coded to social class

Note that the Carstairs quintiles are for Census Wards, which are of different sizes, so it would not be expected that 20% of cases and controls would fall in each quintile.
